

BANDITS HOLDUP
MANHATTAN CAR

Two men are being held by the police as the alleged suspects of committing a series of holdups, robbing street car operators, may or may not be the persons who held up night operators at different times during the last month. Police were puzzled more than ever about the guilt or innocence of these two men in the holdup which received a report Tuesday night that another robbery of a street car operator, making the third, was committed at 9:30 o'clock on a Manhattan street car on Myrtle avenue.

The victim was C. R. King. He said two men boarded his car, one holding a revolver on him while the other searched him. One of them made him start the car, he said, and carry them a few blocks, then let them off.

The description of one of the men suits the description given by the night other street car operators who have been held up.

MAN ASKS \$25,000; CHARGES
FALSE IMPRISONMENT

Frank J. Brennan is suing the Southern Pacific railroad for \$25,000, alleging false imprisonment. The case is on trial before Judge P. R. Price of the district court. Brennan alleges that in April, 1918, detectives of the railroad arrested him and placed him in jail pending investigation of their charges. He was freed of the blame, he says, and claims \$25,000 for being imprisoned. As soon as the Brennan case is over the case of Frank J. Hughes vs. the S. P. railroad will be called. Hughes is also suing the railroad for damages, alleging false imprisonment. This suit grew out of the same circumstances which brought about the Brennan suit.

HELD ON LIQUOR CHARGE

H. P. Rogers was arraigned late yesterday before United States commissioner A. J. W. Schmidt on a charge of receiving and concealing smuggled liquor, consisting of 22 pints of beer, 27 quarts of tequila and 142 pints of whiskey. He waived hearing and was bound over to the grand jury on \$1500 bond, which he had failed to make up to Wednesday afternoon.

FIXED IN ON FIGHT CHARGE

Miguel Zamora and Amado Palacios were fined \$1 and costs Tuesday afternoon by justice of the peace H. R. Hewitt on a charge of disturbing the peace. The men, according to the evidence, got into a fight Sunday morning which grew out of a misunderstanding at a dance in Liberty hall the night before.

DISREGARD OF CENSUS LAWS
TO COST EL PASOANS FINE

Lack of cooperation in being shown census enumerators in El Paso, according to United States district attorney W. H. Fryer, who stated today that when enumerators called on addressees having found all persons of the household away, a card was left, which should be filled out and mailed in.

"People are disregarding the cards, some never send them in; others do send them in blank," stated Mr. Fryer. "This is a misdemeanor and is punishable. I have received about 50 complaints recently and unless law is obeyed I will be compelled to execute warrants."

MAN GETS YEAR AND ONE
DAY IN FEDERAL CAGE

A sentence of one year and one day was given Andres Alarcon in federal court yesterday, following complicated allegations regarding 20 pounds of brass alleged to have been stolen from Fort Bliss. Alarcon identified Francisco Cisneros as the person who he said, gave him the brass. Federico Hernandez, Alarcon's companion turned state's evidence and told the court Cisneros was innocent and that he (Hernandez) and Alarcon were guilty.

Alarcon pleaded he was merely "holding the sack" for another when arrested.

TRANSPORTATION DRY LAW
CAUSES ARREST OF TWO

Seventy-nine quart bottles of tequila were seized and two men were arrested by the police at 4:30 o'clock Wednesday morning in a house in 1200 block on Myrtle avenue. Manuel O. Moreno and Alberto Moreno were placed in jail on charges of transporting and having liquor in their possession in violation of the federal liquor law. The men are brothers, they said.

According to witnesses, two men drove up to the house in an automobile and began to unload the liquor. Capt. W. A. Simpson and policemen E. C. Beck and R. E. McKnight made the arrest.

RATES TO SUSTAIN RAILS
CREDIT INEVITABLE—HINES

Washington, D. C., Feb. 4.—Warning that immediate consideration of rates to sustain the credit of the railroads would be inevitable, in return of the railroads to private control, is given in a statement by director general Hines addressed to newspaper editors of the country, of whom he asked careful study of the railroad problem.

Mr. Hines strongly defends action of the railroad administration in making rate increases, in raising the pay of the rail employees and in dealing with other questions which have been vital to railroad operation.

The entire average increase in freight and passenger rates from 1914 to 1919 is placed by Mr. Hines at 22 per cent in comparison with increases in price of commodities and products of private enterprise ranging from 60 to 150 per cent.

CASE AGAINST COUPLE HELD
ON MURDER CHARGE, PENDING

The case of Mr. and Mrs. Frederick Buchler, who were recently held by Danville, Ill., authorities in connection with the death of Mrs. Sabina Cummings, a wealthy widow of Hoopston, Ill., was scheduled for trial the latter part of last week. A report was received in El Paso yesterday that the couple had been indicted. Any knowledge of such action was denied by W. C. Schneider, 1400 North El Paso street, who is a son of the dead woman and a brother of Mrs. Buchler.

The case has attracted considerable attention, as robbery was believed to have been the motive for the slaying, according to detectives.

A small fortune in money was kept about the place by the widow, who lived alone in the alone town. It is said a large sum of money was found beneath the carpets in the Cummings house and that money was also buried in the yard last week.

Mr. and Mrs. Buchler deny any knowledge of the alleged murder.

Excessive Use of Tobacco After 45
Is Suicidal, Says Dr. Hirschfeld

Most men who use tobacco have no idea of the harm tobacco does them because it does it so slowly that no one day's damage is noticeable. In the strength and vigor of young manhood the injury seems trivial but it accumulates day by day and lays the foundation for many troubles later in life. Tobacco lessens the powers of resistance to disease, and along in the late thirties—sometimes much earlier—it begins to tell, and the awful damage it has done begins to show.

Dr. Hirschfeld in his book, "The Heart and Blood Vessels," says excessive use of tobacco after forty-five is suicidal. Authorities agree that excessive use of tobacco causes loss of appetite, cancer of the stomach and intestine, indigestion, headaches, extreme nervousness, sleeplessness, irritability, lack of concentration, dimness of vision, loss of will-power, forgetfulness, and many other serious troubles. It also causes hardening of the arteries and high blood pressure, and these are the troubles that manifest themselves along in the forties.

Thousands of men who use tobacco daily know it is injuring their health and from time to time they decide to cut down the supply and use less.
